Sorry for the delay in responding as I was out for a while on vacation.

Yes, we would like to be aware of the conditions that likely apply to various areas of the property and we would also like to understand what impact there might be on adjacent Main Street properties the city is looking at developing.

Thank you.

Hi Patrick,

I just wanted to check in with you. I'm meeting with Rafael tomorrow to discuss how we can meet your needs. Just to clarify, you want to know the conditions that will likely apply to various areas of the property, and want to know about data from the perimeter of the site to extrapolate to other areas you are looking at developing; correct?
